Program on Science, Arms Control & National Security

November 3, 1988

Mr. Robert Gates
Deputy Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Gates:

Please accept my thanks for your participation in the Third Annual AAAS Colloquium titled, "Science and Security: Technology and Arms Control in the 1990s." As the organizer of the conference, I greatly appreciated the high level of effort, enthusiasm, and interest all participants brought to this Colloquium. Clearly those qualities set the tone for the meeting and resulted in an extremely successful event.

Your address on "Recent Developments in the Soviet Union and Implications for U.S. Security Policy" could not have been more timely. You soon will be receiving a lightly edited transcription of your remarks. After your approval, they will be incorporated into a printed proceedings which then will be sent to all participants and registrants. In an effort to reach an even broader audience, the proceedings will also be available for purchase.

If you have any comments, suggestions, or questions regarding this year's Colloquium, please call me on (202) 326-6490. Again, thank you for your participation.

Sincerely,

W. Thomas Wander
Program Head
